"Our member companies produce all the commercials you see on TV and the internet. They assume most of the risks of a production and insurance is a critical part of their management of that risk. The team at Tysers Live have worked with us for many years in helping us and our members with their specialist insurance expertise. It has been invaluable and their loyalty and support for their clients in times of crisis has been as valuable as their expertise."

Steve Davies – APA

Our broker is always ready with succinct answers to our questions about our policy and novel situations that can arise during production. SPORT

ATHLETES AND BEYOND

We offer a wide range of tailor made insurance products to individuals, businesses and associations involved in the global sports industry. Just like the sportsmen and women we work with, we always strive to be the best in our field and deliver the best service and the most innovative insurance solutions.

We work with some of the biggest names in global sport and provide cover for many mass participation sporting events including Marathons, Boxing, Snooker, Cycling, Golf and Tennis. We offer discreet, service driven insurance cover for every eventuality. Professional athletes demand the very best and choose us because we look after them, personally, whatever the challenge.

RISK MANAGEMENT

An overview of the risks which we can assist in managing are: legal and contractual risks, physical risks, moral/ethical risks, and financial risks.

We operate in conjunction with the event organiser to structure a system to train, unify and control the identifiable areas exposed to risk, and for the efficient management of any subsequent claims.

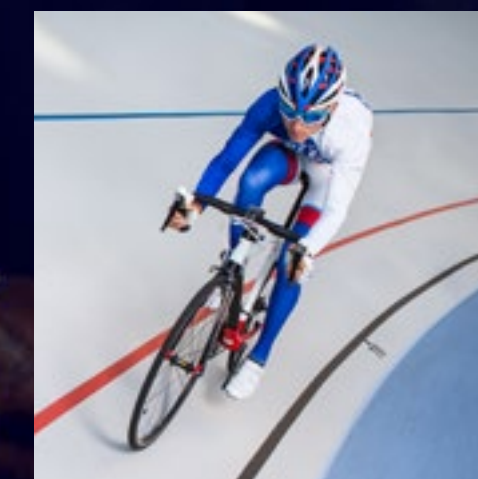

For the larger spectator attended events we have developed the only multi-stakeholder risk management platform in the market. This is a purpose built system for the management of large sporting events. We would welcome the opportunity to demonstrate this system.

From professional athletes to clubs, agents, stadia and more, Tysers Live can provide the cover you need.
